28 July 1885

Dear Sir.

Many thanks for
your letter of the 9th inst.
I have been waiting
expecting more information
from Africa.

A friend of mine who is
mixed up with the Boers
supplies me from time to
time of their movements, and
if it is known I give this
information he would
be a sufferer, and I should

Y^r W Chesson Esq

not get any more - therefore
do not name from whom
the information comes - to
any one likely to let it out.

But the Boers have been
for nearly a year planning
an expedition into Bechuana
land, north of Montsio's
territory. with 800 or a 1000
good shots, professing to make
war on the Matatle King.

But if they once get into
Gaseitsives, Secheli's or
Khamas Country, they may
stop there and hold possession
and the chief could not

help
to
then
to
con
to
cl
to
the
a
n
P
t

help himself, they are going
to try to get Sechele to help
them, if he is foolish enough
to do so. he will lose his
country, and the trade route
to the interior would be
closed, as the only road
to the north runs through
the centre of each of the
above chiefs' country.

Colonel Sir C Warren's
mission to Moutboa and
Mankumans territories will
not stop them, but if they
the Boers have to give
way, they will seek for

further north, for land
and ~~and~~ as a matter of
course the extermination
of the Kaffres would follow
with all the Boers repeated
as in Montsias and Mankweng
territory. If I obtain more
information will let you
know -

Yours very faithfully
Andrew A Anderson
