My dear Sir

I gladly sign
the address you sent
me - I suppose that
I am singular in wishing
to express my regrets
& surprise that the
actions of Europe sent
Representatives to
Conference to parcel

out amongst themselves
the Congo Country
what in any way
considers or recognizing
the native rights to
their land -

What an outcry is raised
about the injustice
of Law Laws in Ireland

and the ^{zealous} determination of
land in this country -
but not a voice was
raised against the
Internationization of
Africa -

Believe me

Yours very truly
