After closing my letter, it occurred to me
as a third question for ~~Dr. Paul~~ Dr. McAuliffe - as
follows:

"So not the ratification by special Statute of
the "Customs and usages" of the Nations at the late
period in the Government of State a departure from
the original intention ^{which was} ~~and~~ the elevation of the
Native races and but temporary ^{not conservative} toleration of
their objectionable practices."

I hope he would be afraid to put these questions
